

DRUMBEAT®

BUILDING RESILIENCE THROUGH RHYTHM

DISCOVERING RELATIONSHIPS USING MUSIC | BELIEFS | EMOTIONS | ATTITUDES | THOUGHTS

"I'M REALLY IMPRESSED; THE DRUMBEAT TRAINING IS WELL THOUGHT OUT, IN-DEPTH AND GAVE ME TOOLS TO USE IN A WIDE RANGE OF SETTINGS – EXTREMELY VALUABLE."

Tanice Foltz – Professor of Sociology, Indiana University

AUSTRALIA'S LEADING BEHAVIOURAL INTERVENTION RETURNS TO THE USA!

DRUMBEAT® is an early intervention program for 'at-risk' youth and adults. We use a unique approach, drawing metaphors and analogies from a drum-circle experience into exercises that address a wide range of relationship issues that impact on life outcomes.

DRUMBEAT was developed by Holyoake, and is used world wide by over 3,500 trained facilitators.

"This training is whole brained – making it unique. Very few other programs offer the variety of critical thinking, relational interaction and rhythmic movement that nourishes every part of the brain – an extremely valuable program which will be a great asset to my work and is sorely needed."

Steve Graner, Director of Education for the Child Trauma Academy

DRUMBEAT is an evidence-based program with a growing research base, including 6 peer-reviewed research studies published in International journals.

DRUMBEAT is delivered in both elementary and high schools, as well as youth centres, mental health groups, hospitals, drug rehabilitation centers, and prisons.
